

HERCX CTO

A week with a hired-gun CTO.

Every founder. Every CEO.
Use it just like a real one.

SWIPE →

DAY 01

The empty seat.

You're still making CTO calls
at 11pm because nobody else
is in that chair.

DAY 02

Stop translating.

You shouldn't have to
become an engineer to run
engineering.

DAY 03

The call.

A real CTO doesn't send a slide. They make the call.

DAY 04

The hire.

Who to hire. Who not to. What the seat actually requires.

DAY 05

2a.m.

What’s actually broken. What
can wait. What ships
tomorrow.

DAY 06

Ship date.

Protect the ship date. Don't delay the hire. That's the job.

DAY 07

Hired-gun CTO.

Stack, team, incidents, and the next ship date — without putting one on payroll.

THE SEAT

Request yours.

Every founder. Every CEO.
Use Hercx CTO just like a
real CTO.
